

**Too Many Mobile Assets and wondering where and who is using?**

- Do you know if your employee is carrying his/her assigned Laptop only?
- Are you able to implement the company policy for managing the IT assets movement?
- Are you able to avoid long queue at security point for signing the laptop movement register?
- Is your security guard able to verify the Laptop and identify the correct owner?
- Is CC TV enough for the tracking the movement of Laptop and its user quickly and accurately ?

**Laptop Movement Tracking Solution that helps in tracking**

Tareta Solutions presents an integrated solution that harnesses the RF ID and Barcode technologies to provide you an automated Laptop tracking solution.

- Automated Laptop movement tracking and reporting
- Tracks the employees and assigned laptops
- Avoids queue at security gate
- Security guard will be able to verify the Laptop and identify the correct owner automatically
- Reduce shrinkage of Laptop
- Employees happy as there is hardly any inconvenience to them
